--- RP-1778 - *fine roulette* - Type I "Coat-of-Arms" - *hollow red* denominations ---

With legislation subsequent to the Budget of 1947, the mandated printing of the excise tax was dropped. The collection ***does not contain*** a used example of **RP-1778** (the *fine roulette* 1/10th pound strip). The following strip is probably a remainder which did not receive the 1943 surcharge. Likely the initial 1,500,000 strips were finished *as fine roulette*.

Note: *Uncoded strips* listed above in the first control number run can possibly be from the second pass through the control number sequence. The use of the unsurcharged **RP-1777** began during the second pass through the control number sequence, with a prefix around the start of the "G" numbers, so any **RP-1737** *uncoded strip*, previous to this point, may be from either the first or the second control number pass.

--- A new control sequence has begun ---

As a matter of convenience, and to avoid a duplicate listing of strips, I have placed many of the *uncoded* strips in the second control number run. This is a purely arbitrary decision on my part.

--- 1/10th Pound -"Series of 1942" - 152 x 15 mm. - 1947-51 ---

--- RP-1777 - *imperforate* - Type I "Coat-of-Arms" - *hollow red* denominations ---

Legislation subsequent to the Budget of 1947 abolished the mandatory printing of the excise tax on the stamps and, in the course of time as the surcharged strips were used up, by mid-1948 the imperforate unsurcharged "Series of 1942" 1/10th pound strip **RP-1777** came into use. The control numbering which had been *pre-printed* on the base 1/10th pound strip continued without a reset.

At this point, the control numbers on the 1/10th pound "Series of 1942" strip have run through two complete (introductory and lettered alphabetic sequences) from **0000001** to **R9999999** (omitting the sequences **I** and **O**) and have continued on the third pass to at least **E1734653** - so at this point the 1/10th pound total is 391,734,653 strips.

Note: the introductory numbers, and each subsequent alphabetic letter sequence, cover 10,000,000 strips

---

The Brandom "Supplement" lists a1/10th pound *fine roulette* Type II Coat-of-Arms with ***hollow red*** denominations. The collection *does not* contain, nor have I seen a copy.

--- Type II "Coat-of-Arms" - *solid black denominations* - 1965-67 ---

--- RP-1864 - *imperforate* - 152 x 15 mm. - *without* control numbers ---

In mid-1967 the use of the 1/10th pound size was revived. As can be noted, the company code has been reversed, and the control numbers have been discontinued. Lee Brandom ***does not list*** a copy of the Type II Coat-of-Arms using ***solid red*** denominations, and the presumption must be that the Type II strip was not in production between early 1951 and mid-1967.
